

Pictures 3

\* This picture is a landscape of the  
school

\* I originally wanted some background objects like the view across viewbank

Picture 4

\* This picture as a classroom behind a bin, using forced perspective photograph, there is a hand "holding" the bin.

\* I took two pictures for this picture and I merged them together as one of them had the background (the classroom and the bin) nicely but the hand was too dark.
