

Picture 4

- * This picture as a classroom behind a bin, using forced perspective photograph, there is a hand "holding" the bin.
- * I took two pictures for this picture and I merged them together as one of them had the background (the classroom and the bin) nicely but the hand was too dark.

Picture 5

- * This picture is a under shot of a tree
- * I had to cut out the tree and make it brighter and the sky darker to make it good
